

Web 2.0 for Federal Scientists and Engineers CoP

A. How to get rid of the flood of general KM.gov emails?

1. Login to KM.gov (using Firefox is better than IE)
 - a. Just type in "KM.gov" in browser and you will be redirected to
 - b. <http://wiki.nasa.gov/cm/wiki/?id=1926>
if you forgot your login info, goto "Sign in" then "Forgot your username or password"
your username would be first initial then middle initial then last name, no spaces. For example, mine is RMDETSCH
your email is probably the one used by Detsch to reach you
if you don't receive update email within 4-business hours, check your spam folder
if all else fails, send your contact info to the NASA administrator ellen.r.trevarthen@jpl.nasa.gov
2. Go to My Settings/Preferences Tab
3. Un-Check "Forum Notification:"
4. Hit "Update" button

B. How to get alerts when "Web 2.0 for Federal Science and Engineering" is updated

1. Go to Web 2.0 for Fed S&E site <http://wiki.nasa.gov/cm/wiki/?id=6742>
2. Sign in
3. Click little envelope icon near upper right to add this site to your watch list
Note: little envelope will now have the "+" replaced by an 'x' – so if you hit it again it will take you off of the alerts
